

# MULTICUBE

Mobile parasol bases with gabions

**CARAVITA®**

Exclusive Sunshades and Sun Sails

Part of WAREMA Group

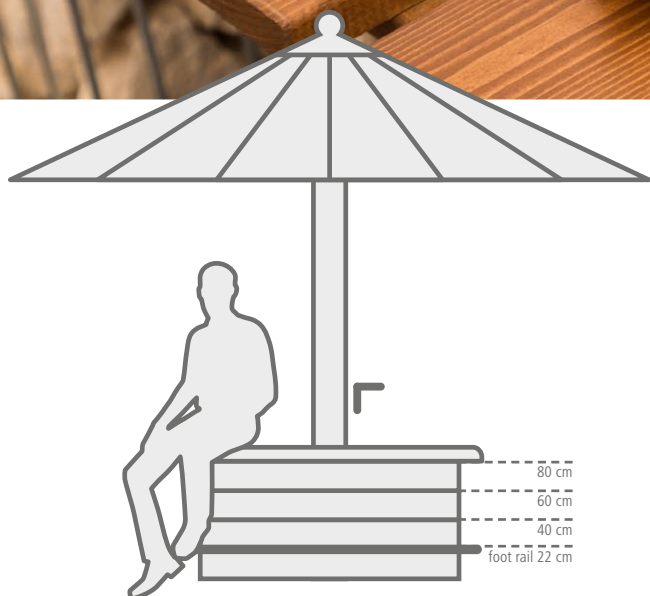

# Style and function perfectly combined

The gabion **Multicube** is not only an attractive eye-catcher, it is also an ideal additional standing table or seating option, depending on the chosen height. The robust steel cages with wooden seat are the ideal replacement for a common parasol base with concrete pavers. The innovation, which has been especially developed for catering trade, creates a relaxing atmosphere and space for more guests. Thanks to the clever lifting device for pallet jacks, the **Multicube** can be moved very easily. The mobile parasol base thus guarantees a flexible arrangement of the outdoor area – without the necessity to install a ground sleeve.

The filling is up to your choice and can be chosen to match best with any catering situation – how about wine bottles or logs instead of stones? Examples of Inspiration can be found on the back. The gabion offers sufficient space for technical features: LED light, Bluetooth speakers or WLAN hotspot make the **Multicube** a highlight outdoors!

And best of all: The **Multicube** can easily be retrofitted to existing CARAVITA parasol bases. For a standardized appearance, the steel cages can be powder coated in a large variety of RAL colours.

## Your benefits

- Additional standing or seating option
- Flexible: lifting device for pallet jacks
- Individual sizes, colours and filling
- Ideal advertising medium
- Eye-catcher for every outdoor area
